

- You will be **randomly selected to be either Player 1 or Player 2**
- You will **keep your role** as Player 1 or Player 2 **throughout the experiment**
- Player 1 and Player 2 **take turns in choosing between two actions.** Those actions are **"Take" or "Pass"**
- You will **participate** in the decision procedure **many times**; each participation repetition is called a **"round"**
- In **each round** you will be **matched with a different person**
- The **first player to click on "Take"** ends that round and **determines the payoffs of both players in that round as shown at the node where he/she clicks on "Take"**
- You will be paid the sum of the payoffs from all rounds
