

Group Y Form
(version A)

MAILBOX LETTER ._____.

1. The box contains a small envelope labeled “Key Group Y.” **Remove this envelope from the box now** and keep it until the end of the experiment. You will need the key in this envelope to collect your money payoffs from your mailbox
2. Your box contains some one dollar certificates because the paired person in Group X gave you _____ dollars from his/her \$10 show-up fee. This amount was tripled by the experimenter, which yielded the _____ dollars you have received.
3. Your box also contains two envelopes labeled “my certificates” and “certificates returned to the paired person in Group X.”
4. **YOUR DECISION TASK** is to decide how many certificates to put in each of the two envelopes.
5. Any certificates that are left loose in the box (that is, not put in either envelope) when you return it to the monitor will not be paid off in U.S. dollars to anyone by the experimenter at the end of the experiment.
6. You have 10 minutes to make your decision.
7. Please also put the envelope labeled “my show-up fee” that contains your 10 one-dollar show-up fee certificates in the box. The experimenters will include \$10 in payment for these certificates in the payoff envelope they put in your mailbox.
